—Reckling, the photographer, is at Ridgeway.
—Mr. Murray Robinson, who has been unwell, is able to be out on the streets again.

—Mr. H. L. Elliott, Sr., who has been quite unwell, is much better and is able to be out.

—Mr. J. O. Boag has sold of Oregon horses which he will sell cheap for cash or on good paper.

—Mr. T. W. Ruff is hauling some pine, oak and hickory wood to town, ready out for the fire place.

—A. S. & W. D. Douglass were elected attorneys for the Farmers' Mutual Fire Insurance Company.

—Mrs. Eggleston has received her commission as postmistress at this place to the gratification of her many friends.

—The Clerk, Treasurer and Auditor were revising the jury list on Wednesday which is required to be done every January.

—Mr. Thomas P. Youngner has been appointed trial justice in the township where he lives—near Wallaceville.

—Those having claims against the school fund may have them settled by presenting them to the County Treasurer on Thursday next.

—We hear that oats on sandy lands are badly damaged by the recent freeze. There was a rumor that they were badly hurt over the county, but this has not been confirmed.

—It is stated that Mr. John Stevenson, of this county, who is on the State constabulary force, has been stationed in Augusta where he may watch the tiger as it makes for South Carolina.

—The Farmers' Insurance Company of this county have made an assessment to pay the loss caused by fire of a house in which Mr. D. M. Brown lived, which was the property of Mr. Butler Estes. Paying for losses will give great confidence and strength to a home company.

—We call attention to the advertisement in this issue of Wm. R. Davis, Jr., & Co., of Rock Hill. This firm is soliciting business as brokers and commission merchants. They ask all planters to correspond with them before making their arrangements for advances and supplies. We feel confident that those who patronize them will be satisfied with their business arrangement.

—Mr. Q. D. Williford, the pushing manager for J. L. Mimnaugh, announces in this issue that he must have room for spring goods, consequently will offer rare bargains. They say this is no advertising dodge, and asks everyone to come and see for themselves. Blankets and overcoats are "between seasons" now and they offer great reduction in prices. Give them a call; they promise to save money for you.

—A great many unique suggestions have been made by parties who wish to help advertise the Cotton States and International Exposition. A characteristic one comes from Texas. A gentleman from that State wishes to drive ten white horses tandem through all the Southern States, making a tour of nine months, visiting every town and hamlet. The horses are to be richly caparisoned, and the leader is to carry a banner with a suitable legend, announcing that he is on his way to the Exposition.

—Mr. A. Hays, of the Greenbrier section, told our reporter on Wednesday that he got two shots in February of last year that weighed 102 pounds each, and when killed not long since weighed 1,000 pounds, and he got 172 pounds of lard from them. He also had nine acres of corn which measured (by a committee) 384 bushels per acre. He talks like he would just clean up the field in a prize club contest in his section. We sincerely hope the farmers there will get up a club and see who gets the blue ribbon. It is very beneficial to a community and a great pleasure also. Try it, gentlemen.

WHY DO WE PAY \$1.35?—We would like to know why the railroad company charges \$1.35 to Columbia, (the old Charlotte depot,) yet passengers pay for more than that distance. The fare is actually only \$1.22, yet every one pays 12 cents more than is allowed to be charged. The rate is 34 cents per mile for first-class fare. Every person who buys a ticket to Columbia, and returns on a straight ticket, pays 25 cents for nothing.

MORE BIG HOGS.—Mr. Jno. M. Harden was attracted by the article on big hogs in our Tuesday's paper and called our reporter in and said: Well, I see you are advertising some big hogs and telling about the Watercress. Let me tell you what I did this year. I fed three hogs at a cost of \$42.50 and sold \$33.50 worth of pigs. I got 450 pounds net from two of them and still have the largest one yet on hand. So it cost Mr. Harden only \$12.50 for 450 pounds of meat and has a large hog yet unskinned. Let us hear from some one else. Mr. Harden says that all of his feed and regards it as the best food for his hogs which

Enlisted for Good Work.
At three o'clock on Saturday the clerks of the different district school boards in the county met at the office of D. L. Stevenson, School Commissioner, and organized themselves into a body to foster and aid the cause of education in the county. T. W. Brice was elected chairman and Dr. J. E. Douglass secretary.

Will Not Some One Try This Remedy?
The Darlington News says that tobacco barns are going up all over the country around Lamar. The people of Darlington are making money out of tobacco and they appreciate a good thing.

It has been said by competent judges of tobacco land that Fairfield county has as good tobacco lands as any place in the State. There are plenty of farmers in Darlington, Florence and other counties who are making good money out of tobacco. Will not some one try it?

BURNED TO DEATH.
Another tragical occurrence, showing the careless affection of some of the colored people, took place on the plantation of Mr. Jas. Lyles, on Terrible Creek, near Blair's Station, S. C. & R. R., in this county, on Tuesday, the 15th inst. A colored girl, eight years old, was left alone in the house, when her clothes caught on fire, burning her so badly that she died in a short time afterwards. Trial Justice Blair, ex-officio coroner, impaneled a jury, which rendered a verdict in accordance with the facts.

APPOINTMENTS.
The chairmen of the township boards appointed to represent each township are as follows:
No. 1—T. W. Traylor.
No. 2—W. J. L. Weir.
No. 3—J. B. Patrick.
No. 4—M. B. Refo.
No. 5—P. B. Cornwell.

No. 8—G. Y. Langford.
No. 9—A. J. Brown.
No. 10—J. W. Clarke.
No. 11—Jos. McKeekin.
No. 12—W. J. Turner.
No. 13—Jno. W. Lyles.

There has been no appointment in No. 7 yet, and in No. 6 we were unable to ascertain who was chairman.

Will Raise 100 Hogs This Year.
Mr. Daniel Hall was in town Wednesday and says the farmers in his section have planted more grain this year than ever before. Mr. Hall has sixty acres up and in good condition. He and his brother will raise one hundred hogs this year, as he has more corn than he has any use for on the farm. He proposes to make meat to sell. He will plant cane and sweet potatoes also. Fairfield is going to farm on first principles this year, he says—live out of the ground.

Mr. Hall thinks Winnsboro should have a cotton factory with shares as low as \$5 so that most any one could lay aside that much to put in a factory—plant an extra patch for the purpose. And he thinks the amount to be owned or even controlled by one man should not exceed \$10; thereby preventing a few men from controlling. We hope some of our enterprising men will push this matter to success.

A Carolina Actor.
The coming of so progressive a young actor as Mr. Nathaniel Hartwig, now touring with Miss Marie Wainwright, to Charleston awakens exceptional interest in Southern theatrical circles. Mr. Hartwig is the eldest son of Dr. S. B. Hartwig, formerly an esteemed citizen of the county of Camden, S. C., but now one of the most prominent of his profession in New York city.

In consideration of Mr. Hartwig's short stage career he merits and has accordingly evoked the pronounced applause of even the strict critics. He appeared in his first substantial role under "Robert Mantell," and his earnestness and exceptional talent together with a handsome and commanding presence, has won for him most valued professional recognition.

As a proof of this appreciation he is now the leading man of the accomplished and versatile Marie Wainwright. Her company is now touring the South, and we await Mr. Hartwig's appearance with native pride and eagerness.—News and Courier.

Children Cry for Pitcher's Castoria.

Sugar vs. Salt.

Dr. Arthur T. Neal, director of the experimental station at Newark, N. J., says that a gallon of cheap molasses poured into a barrel of water and sprinkled over wheat straw, oats straw or inferior hay will cause stock to eat it freely. He says it is better than salt on hay and does not create the thirst that salt does; the sugar improves the flavor of meat and helps to cure it. He is enthusiastic on the subject.

In this connection we think that Mr. H. S. Wylie's sorghum cane feed for hogs is a verification of the idea. A certain merchant in Winnsboro feeds cheap brown sugar to his horses and mules, and we heard that Mr. U. G. Desportes' driver feeds his two fine mules on cheap molasses (rolls the corn in it). They show extra feed of some kind; so perhaps the humble sorghum cane may yet play an important part in the farming operations in this country.

Fine Goods Also.

A gentleman from New England on his way South stepped off the cars here on Wednesday and asked if there was "any manufacturing in this town." He was answered by the statement that there was a cotton seed oil factory here. He asked what the farmers got for cotton and said that they could buy it in his State at 54 to 55¢ and thought the farmers must suffer greatly on account of the low price. He was informed of the offer Columbia is making in order to get cotton mills there and said yes, that is right, you all should make the coarser goods and we will make the fine goods. We hope the fact will be demonstrated to the satisfaction of all New England that the South can and will make fine goods also in a very short while. There is no doubt that the mills North are getting in shape to come South. If they do not, they will simply sacrifice their time and money. The era is here.

There is good reason for the popularity of Chamberlain's Cough Remedy. Davis & Buzard, of West Monterey, Clarion Co., Pa., say: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough Remedy and they now recommend it with the rest of us." 25 and 50 cent bottles for sale by all druggists.

CITIZEN WANTS A NUISANCE ABATED.

Messrs. Editors: I wish to call the attention of the town authorities to what has become an intolerable nuisance, viz: The crowd of negro roughs, who, without let or hindrance have taken possession of the street and sidewalk in the vicinity of the postoffice and the express and telegraph office. From early morning until late at night, they hold possession, to the great annoyance and inconvenience of persons having business at either of above mentioned offices, and at times the way is completely blocked against ladies and children. I suppose we can't have a chain gang for these roughs, but a dose of guard house and bread and water might help things somewhat. Will our Town Council not give us a little rest? CITIZEN.

A NEW DEPARTURE IN THE RIGHT DIRECTION.—It was known for some time back that a trade was pending between Gen. Bratton, Mr. T. H. Ketchin and J. N. Center for the purpose of perfecting an improved dairy business at Farmington, Gen. Bratton's home. This paper said nothing about it simply because it does not like to mention the starting of an enterprise which does not materialize for some reason or other. But the arrangements are all perfected and the papers have been signed. Messrs. Ketchin and Center have purchased a half interest in Farmington, the stock, cattle, &c., and Mr. Center and family will move there to live. The new firm will raise thoroughbred horses and cattle and hogs, they will take in the sheep industry also. They have secured the services of an expert butter-maker from Connecticut who is now selecting some improved machinery and appliances to be used in connection with the business. This gentleman will bring his family from Connecticut when he comes. We wish to congratulate the gentlemen on being so fortunate as to secure so competent a person as Mr. Center as an aid to their new enterprise. Without the aid and counsel of some good lady like her in such business it is up hill business. This is an enterprise in which every person in Fairfield is interested and one which may revolutionize things in our county to a surprising degree. At any rate the lesson must be learned that cotton has been our ruin, but the remedy lies in our own hands. Mr. E. P. Mobley, Jr., and Mr. Daniel Hall have expressed a willingness to furnish milk and will keep an extra number of cows for the purpose. This will aid Mr. Hall in raising his one hundred hogs as he will have such a quantity of milk that can be spared, skimmed milk and butter milk. Messrs. Ketchin and Center thought of opening the business and had the promise of milk from fifty cows in the vicinity of town. We hope earnestly that these gentlemen will succeed; this effort carries great import for Fairfield County.

WE HAVE STARTED, LET'S NOT STOP.

A mass meeting of the farmers was held in the Court House on Saturday, 19th inst. J. D. Harrison was elected chairman and Hugh S. Wylie secretary.

The committee which had been appointed at the last meeting made their report.

M. Mellichamp stated that a meeting had been held in the L. v. n. section, and that the farmers had expressed a determination to reduce the cotton acreage and use but little commercial fertilizers.

After a full and lengthy discussion the report of the committee was adopted by a rising vote.

The following committees were appointed to organize in their respective localities:

Farmington—D. P. Crosby, T. D. Owings.

Monticello—W. J. Martin, A. E. Davis, G. F. Andrews.

Jenkinsville—D. H. Yarbrough, T. P. Youngner, P. M. D. Holley.

Horeb—T. B. McKinstry, Geo. B. Gibson.

Jackson Creek—T. M. Jordan, W. J. Turner, Jason Pope.

Greenbrier—J. L. Robinson, J. R. Cupple, W. A. Neil.

Ridgeway—T. L. Bulow, F. B. Austin, E. M. Mellichamp.

Longtown—S. McCormick, George Wilds, Jno. H. Jones.

Upper Longtown—M. Mellichamp, Jas. E. Stewart, D. G. Smith.

Oakland—Woodward Durbin, Jno. Hollis, J. C. Pickett.

Rocky Mount—W. T. Scott, Jno. G. Johnston, Jas. Bankhead.

Gladden's Grove—H. C. Gratton, W. S. Hall, Daniel Hall.

East Watercress—F. A. Neil, John M. Gayden, J. C. Williamson.

White Oak—R. A. Patrick, W. E. Hendrix, J. C. McDowell.

Woodward—W. B. Brice, R. G. Miller, E. M. Woodward.

Albion—Geo. Brice, W. L. Rosborough, C. S. Brice, Jr.

Rockton—T. W. Woodward, F. M. Gadsden.

The following mutual plan of building a cotton factory was read and met with strong approval:

Mr. H. S. Wylie, Secretary:

Dear Friend—How do you think it will do to agitate the idea of a mutual cotton factory building? Mr. F. T. Neely, of Hillsboro, Ala., advances the plan of each farmer giving one-fifth of his cotton crop for this purpose. My plan is, for all parties who think it advantageous to our county to obligate the product in cotton of one acre to each male or horse, give it special work outside of regular crop. Obligate this one acre to each male or horse at once legally, and operations probably. A cotton factory ready to utilize some of the crop of next fall could be built. The advantages, as you well know, of cotton factories in a county are several fold: 1st, manufacturing our cotton at home, which realizes one-fourth to one-half cent per pound more than on cotton shipped; 2nd, giving work to our girls who now cannot make a living; 3rd, making a home market for many of our farm products.

I am sorry I cannot be with the meeting. We must organize and do it. We can if we will. I can safely say the town will co-operate. North Carolina realizes the advantage of many small mills. She has three times as many as South Carolina.

The above, as you see, has been respectfully,
J. M. BEATY.

ADVANCE, ENDEAVOR.

There is no religious organization in the United States more widely known, or its influence more felt for good, than the Society of Christian Endeavor.

With its membership of over two millions, it is training a host of earnest young Christians, who will do active service in the cause of Christ in the next generation. The society being under the strict control of the church in which it is organized, is thus adapted to all denominations, as is proven by the fact thirty-two denominations have recognized the usefulness of the Societies by permitting them to be organized in their churches. Although the promoters of the movement are proud of this fact, yet its chief mission is not forgotten, for they seek in every way to inculcate the lesson of loyalty to Christ and to the churches in which the societies are organized.

The State Christian Endeavor Union realizing the good that has been accomplished wherever the Society has been introduced and given a fair trial, especially in arousing young Christians to greater activity in Christ's service, has decided to ask every minister of the Christian Church in the State to co-operate with them in celebrating the organization of the first Society, by forming Societies in every church in the State, either on the 2nd of February, or during the following week.

Christian workers, we need your assistance; kindly let us have your hearty co-operation, and help us to make the date mentioned memorable in the history of the Christian Endeavor movement in South Carolina, because of the great number of C. E. Societies formed at that time. All Societies are requested to report to the State C. E. Secretary immediately after organizing, because it is greatly desired that he be able to report a great increase in the number of Societies in the State, at the next State C. E. convention, which will be held at Blackville in April.

COLUMBIA, S. C., Jan. 19, 1895.

To the Patrons of the Columbia Female College: Only the western wing of the college building has been injured by the fire and that will be repaired as soon as possible. We will then be as comfortable as ever. By this evening room will be provided for all the girls and the regular exercise will be resumed Monday morning.

When the fire became known the citizens of Columbia immediately threw open their doors and are now entertaining the young ladies with the best the city affords.

We are proud of the behavior of our girls under the trying circumstances through which we have come. Parents may be assured that their daughters are receiving every needed attention. Everything will be done to make them comfortable and happy.

Yours truly,
